CLUB WAS FORMED FOR JUDGE MAYER

ORGANIZATION PERFECTED TO BOOST MAYER FOR GOVERNOR

FORD IS HEAD OF CLUB

Several Other Towns in the County are to Organize Similar Clubs—Officers Elected.

At a meeting of forty Democrats of Maryville at the court house last evening, a "Maryville Mayer for Governor" club was organized to boost candidacy of Judge Charles H. Mayer of St. Joseph for the Democratic nomination for governor. The officers elected were M. E. Ford, president; H. E. Wright, vice president; Fred Wright, secretary; and Dr. Frank C. Wallis, treasurer.

The following resolution written and presented by Judge W. C. Ellison was unanimously adopted:

"Resolved, by the Democrats of Maryville, in mass meeting assembled, that we hear with great satisfaction and pleasure of the determination of Judge Charles H. Mayer to become a candidate for the nomination for Governor at the ensuing Democratic primary election. In him, whom we know personally so well and favorably, will be found in rich abundance, all the requisite qualifications for that distinguished and important office. As a judge, lawyer and citizen, he has won the confidence of all who know him; his learning, marked ability and unflexible honesty fit him for the manifold duties of that high office and without reserve we recommend him to the Democracy of the state as Northwest Missouri's ablest and most lovable citizen."

A membership committee was appointed for the purpose of enrolling other Democrats of Polk township as members of the club. It is expected to secure at least 200 members.

The club also recommended to the Democrats of the other towns of the county to organize a similar club. It is understood plans have been made to organize a club at Barnard, their membership roll being circulated this week. Several other towns are also arranging to organize.

Several of the Democrats in attendance last night said Judge Mayer should receive the unanimous support of the Democracy of this county. Mr. Ford, L. C. Cook and George Pat Wright spoke of Judge Mayer as a friend and neighbor and of having never failed to respond to the call of Nodaway county when anything was wanted.

The membership roll of the Maryville club will be circulated and all Democrats are invited to join. The charter members of the club are: Judge John M. Dawson, Judge W. C. Ellison, Charles F. McCaffrey, G. H. Westfall, Fred Wright, M. E. Ford, M. A. Peery, Ellis G. Cook, Ed G. Orear, N. H. Brown, A. S. Robey, F. C. Wallis, George Pat Wright, W. G. Sawyers H E Wright, Ed Wallace, Dan R. MAJ. POWELL MADE CHEVALIER OF FRENCH LEGION OF HONOR

Distinguished Service of Maryville Man During World War Recognized by French Government.

Major Clifford Powell of this city has been made a Chevalier of the French Legion of honor, for distinguished service during the war. The citation signed by President Deschanel of France came to him a few days ago.

Major Powell served twenty one months in France with the famous Rainbow Division, a division of fighting men whose valor and deeds have won the admiration of the world. At the time he entered service Major Powell was captain of an infantry of Iowa men. Serving in the same regiment was Glade Bradley, a son-in-law of Mr. and Mrs. Jim Andy Ford of Maryville.

Mr. Powell came to Maryville last October from Red Oak, Iowa, as counsel for the First National bank.

LASHER CLUB CARES FOR WAR ORPHAN

MADELINE CHEREAU AND ANDRE VIAL ADOPTED IN 1918

DOES MANY CHARITIES

Community Organization Back of Much Relief Work—Individual Member Also Supports Orphan.

One of the charities which is the work of the Lasher Community club is the care of two French war orphans The club adopted these war proteges two years ago and expects to continue aiding in their support and education until the children are able to take care of themselves.

The Lasher club has long been

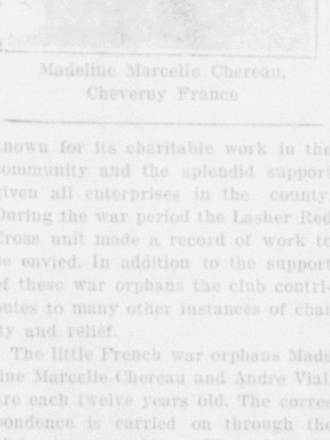
Madeline Marcelle Chereau, Cheverny France

known for its charitable work in the community and the splendid support given all enterprises in the county. During the war period the Lasher Red Cross unit made a record of work to be envied. In addition to the support of these war orphans the club contributes to many other instances of charity and relief.

The little French war orphans Madeline Marcelle Chereau and Andre Vial, are each twelve years old. The correspondence is carried on through the club secretary, Miss Ella O'Grady, who this morning received a letter from the little girl.

Since adoption by their American benefactors, the children have been learning English and the little boy is now able to write a few sentences. The little girl is learning and she hopes to send her little messages in "American" soon.

Madeline lives at Cheverny, province of Lori-Cher, a village of eleven hundred inhabitants. Her father, a harness maker by trade was killed early in the war. Her mother is a dressmaker and at work. Madeline is constantly in scchool and by her letters, so far written in French, is showing splendid progress.



Andre Vial
Fanne, France

Andre, is a little twelve year old boy who lives in Fanne, in the north part of France. His father was killed on Oct. 22, 1916 giving his life for his country after a few months service. His mother is also a dressmaker.

Mrs. Mary Kost Riffle, a member of the Lasher club supports individually a little war orphan, Leone Darmany, living at Orleans, France. She has had the care of this little girl for the past two years and she as well as the Lasher club with their proteges, does many acts of kindness other than send money for the children's support. Packages of clothing, books and remembrances are constantly sent to the children. Miss Mabel Riffle is president of the Lasher Community club.

The cuts of the children were loaned the Democrat-Forum through the courtesy of Miss Ella Heininger, head of the boys and girls' department of the St. Joseph News-Press. Miss Heininger is known to many people in this city. With Mr. and Mrs. J. A. Still, and Mrs. Anderson Craig, Miss Heininger for two years owned and operated the Maryville Daily Record. They also published Childhood and Youth a magazine in Maryville. When the Maryville publication were sold Miss Heininger went to St. Joseph and has since been connected with the St. Joseph papers. She was a member of the First Christian church and took a zealous part in all its activities.

Miss Heininger established the French orphan work in St. Joseph and has interested hundreds of boys and and girls in their French cousins. She is a student of French and translates dozens and dozens of French letters into English and American letters into French every week, strengthening the ties between France and Les Etats Unis. Friends here, who are interested in caring for the French orphans, are also greatly indebted to Miss Heininger for aid given in their mutual benefit.

BEHIND SCENES OF BIG STYLE SHOW

NIFTY DISPLAYS THAT NEED A DOUBLE OPTIC VIEW.

A FEW COMING EVENTS

Haines to Keep Open House—Each Merchant to Offer Some Feature of Entertainment Monday Night

Behind the scenes of Maryvilles big Spring Opening and co-operative merchandise display which starts at 7:30 o'clock Monday night with a band concert and the unveiling of all the store windows in the city, is an army of folks planning wonderful things for the night and the week to follow.

The weather man has sworn allegiance to Maryville for the event, which promises to be the finest merchandising display ever held.

Up in the whispering gallery today was told that—

Haines Hos' to All.

Harvey L. Haines as usual goes the whole host, throws the doors wide open and invites the public to come inside and spend the evening with the Haines Bunch. The entire store is to opened and the "Bunch" in their red and white company frocks will be there to show the new goods to visitors.

When folks are invited, of course, they don't pa yto get inside. And glory me, what an inside. Just a little bit of spring fashion paradise made out of tricolette dresses, taffeta frocks, berella sport coats, beaded georgette blouses, those adorable French voile affairs combined with linen in such bewitching afternoon and porch frocks and the tony new tricotine suits and smart looking wool plaid skirts, and the sassy dresses for the flappers and hand embroidered French dresses for the littlest duckling of the family. Did you ever saw the sunrise about six o'clock these March mornings? Ayes are absent. Then look Monday morning in the east just south of the Burlington statiin and you will see a riotous blend of colors that you will see duplicated at the Haines store Monday night. You all are invited to visit the store from 7:30 till 9 o'clock.

Graham-Latimers at Home.

The Graham-Latimer store is working over time to make this occasion just a little bit the nicest party the town ever had and for that reason the manager, F. S. King, is fixing his display for the pleasure of the family

CHAMPIONSHIP B. B. GAME ON TONIGHT

GALT WINS FROM MARYVILLE THIS AFTERNOON SCORE 25-22

MANY FAST CONTESTS

Game Between Richmond and Hopkins Late This Afternoon to Decide Other Champion Contestant.

BULLETIN

The winning of Galt over Maryville by a score of 25 to 22 this afternoon gives Galt a place as contestant in the championship game to be played tonight. The othe rcontestant will be the winner of the Richmond-Hopkins game played late this afternoon.

Results of the Games.

Saturday morning

Maryville 28, New Hampton 23.

Richmond 26, Tarkio 15.

Hopkins 21, St. Joe Benton 16

Friday Night

Hopkins 33, Holt 21

Benton 23, Mound City 13

Galt 48, Bigelow 18.

Friday Afternoon

Richmond 71, Daleview 17

Today at noon four teams were in the race for the championship of the basket ball tournament being held at the State Teachers college of Northwest Missouri high schools. They are Maryville, Galt, Richmond, and Hopkins. Maryville and Galt play this afternoon and the winner of this game will play the winner of the Richmond-Hopkins game tonight at the college court for a championship title.

The Maryville game played this morning was one of the fastest games on the college court. The score was never over 6 points difference for either side. New Hampton's forward, Brown, was by far the steller player for his team, making 12 out of 23 points. For Maryville all played excellent. DeArmond tacked 5 field goals to his credit and French threw 6 free goals out of 6 trials. Faris ringed 3 baskets while Foreman and Kirby played excellent on the defense. The lineup follows:

Maryville	F	FG	F
Faris, f	3	0	2
DeArmond, f	5	0	2
French, c	3	6	1
Foreman, g	0	0	3
Kirby, g	0	0	3
New Hampton	**F**	**FG**	**F**
Brown, f	4	5	0
Gibson, f	2	0	1
Bloomfield, c	2	0	3
Beeler, g	0	0	0
Vesseltine, g	1	0	3
York, g	0	0	0

Sub—New Hampton, York for Vesseltine. Referee, Richards. Scorer, Hull. Timer, Carter.

The Richmond-Tarkio game was a slow one, neither team exerting much pep. Once Richmond got the lead it was never in danger and the end of the game saw the score 26 to 15 in favor of Richmond. Whitemore at guard was the star player for his team while Kyle, Tarkios center, was the stellar player for his quintet, making 13 out of 15 points. Puckett refereed.

The Hopkins-Benton game was a good fast game, both teams being evenly matched. At the end of the first half the score stood 10 to 10 but Hopkins shook up the tree and soon was ahead. At the end of the game the score stood 21 to 16 for Hopkins. Rice refereed.

The first semi-final game was played last night between Galt and Bigelow, each team having defeated a team yesterday morning. The husky Galts were too much for the lighter Bigelow team although the latter showed fighting throughout. With the final score of 48 to 18 for Galt, Bigelow was eliminated from the championship. Puckett of the S. T. C. refereed.

Hopkins in a whirlwind game eliminated the Holt quintet by a score of 33 to 21. Holt's poor goal shooting trying many long shots crippled them considerably. They shot 2 beautiful field goals but did not count because of a foul being called previous to the throw. Hopkins good passing featured. Rex Hopple holding down the center position starred. Richards of the S. T. C. refereed.

In the second game between St. Joseph Benton and Mound City the teams were excellently matched and the score was kept about even through the first half, Benton winning this by 10 to 7. During the last half Benton gradually left their opponents. Coach Rice refereed.

The Richmond tea mdefeated the Dale View consolidated high school team in the closing game of yesterday afternoon by a score of 71 to 17. Richmond held the lead from the start and at no time was the game in doubt. Detwiler and Whiteman starred for Richmond, winging 18 field goals. Whitemore's defense work was excellent.

PEACE TREATY FAILS BY 7 VOTES

KNOX RESOLUTIONS TO DECLARE PEACE IS CALLED UP.

INTO THE CAMPAIGN NOW

Treaty Was Delivered Back to Secretary Tumulty This Morning.

Washington, Mar. 20—The treaty of Versailles rests with President Wilson today. The entire attention of the nation is focused on the White House following the senate refusal to ratify the treaty a second time. The treaty was delivered to Secretary Tumulty shortly before 10:30 o'clock this morning.

Washington, Mar. 20—The German peace treaty with its League of Nations covenant failed of ratification in the senate last night by seven votes and was ordered returned to the President with a formal notification of the failure of the body to consent to the pact he had negotiated in Paris.

With the treaty out of the hands of the senate Senator Knox moved to proceed to the consideration of his resolution declaring a state of peace with Germany by repealing the declaration of war, this resolution having been favorably reported to the senate last December. The senator's motion to take up the resolution was pending when the senate adjourned until Monday noon.

The vote on the ratification motion was 49 ayes and 35 noes, the affirmative side being seven votes short of the required two thirds of the senators present and voting. Twenty eight Republicans and twenty one Democrats voted for the treaty with the reservations while twelve Republicans and twenty three Democrats voted against it. Six Republicans and two Democrats were "paired" for and three Republicans and one Democrat against it.

Washington, Mar. 20—After a conference with the president, Secretary Tumulty announced the president had no statement to make on the defeat of the treaty or in regard to his future course.

New Haven, Mar. 20—The defeat of the treaty is a collossal crime against our country and world" said W. J. Bryan. He further said that "if we all the minority of the senate to dictate the policy of the senate on this momentous question, we better turn our back on democracy, arbitrary power exercised by a few is scarcely less hateful than arbitrary power exercised by one. He further said "the majority" of congress should assert itself and declare the war at an end and declare this nations participation in the league of nations at the majority agree on."

BETTER LINE THAN CORSETS

Saleswoman Had to Admit That Acquaintance Would Be Wrong to Make a Change.

They were in Pullman seats on a night train, both making up expense accounts. One leaned over and said:

"Ever pad it?"

"I—think not. Do you?"

"Surest thing you know. All the money I spend I make up in my accounts."

Then came the usual question:

"Say, what line are you in?"

The rich society girl who had offered her services to raise money for the colossal war work campaign smiled, played the novice and parried the question:

"What line are you in?"

"I'm in petticoats. But if you want to make money go into corsets. I was in corsets five years and made a pile of money, but you get tired of selling one line, and so I went into petticoats. But, believe me, if you want to make money go into corsets. Say, what town did you do today?"

"R——"

"Did you make good?"

"Yes, I think I did fairly well."

"How much did you do?"

"About $50,000" (the actual amount pledged to Miss —— for the campaign).

The saleswoman, who had considered a $200 day in corsets good business, gasped:

"Heavens, don't go into corsets!"

YOUR WATCH A POWER PLANT

Really Enormous Amount of Energy Is Concentrated in That Luminous Radium Dial.

If you own a radium-dialed watch with luminous figures and hands, then you are the possessor of a vast power plant of no mean proportions, says the Electrical Experimenter. There is sufficient radium on your watch dial to haul your train homeward, if it could be properly applied.

As the matter stands, the innocent-looking radium dial does not seem to possess any extraordinary amount of concentrated energy, but this is only apparently the case, and not actually so; for the reason that while the amount of activity manifested by the radium paint on the dial is small, this effect will keep up for 2,500 years, provided the zinc sulphide, with which the radium is mixed so as to produce a glow, held out that long. The zinc sulphide in most cases gives out in about eight to ten years.

Now, if we could but find a way to make the radium release all its energy in a few hours, instead of spreading it over 2,500 years, it would not be difficult to make a motor that would utilize this energy.

Daddy's Status.

Barbara and Helen were spending Christmas day thoroughly enjoying the gifts Santa had left for them. Barbara, the older sister, had spent the previous summer in the country, where her father, a doctor, had thought it advisable to have her. Helen showed herself partial to a big toy horse, upon whom she had contemplated bestowing a name, when she turned to her sister with the remark: "I wonder is this a girl horse or a boy horse?"

With an indifferent shrug of the shoulders Barbara said: "I don't know."

Helen's rejoinder came promptly: "You ought to know; you were in the country long enough last summer."

Just then the children's father came into the room, and Barbara suggested they "ask daddy."

To this Helen haughtily replied: "He ain't no horse doctor; he's a person doctor."

Sweetness of Revenge.

Timothy Brown was a commercial traveler and a valuable asset to his employers.

On one of his periodical rounds he included in his list of calls a certain yarn merchant, Jonas Perkins by name—a crotchety, ill-natured individual—who invariably treated Timothy with the greatest of discourtesy, and who on more than one occasion had torn his card up in his presence and thrown it on the floor. As becomes a good commercial traveler, however, Timothy was undaunted and vowed to be revenged.

In due course he called on his friend again and presented his card.

"Hallon!" shouted old Perkins, giving the card the usual wrench. "What the—" But here he interrupted himself with a yell of pain, accompanied by a miniature war dance.

Timothy's card was made of enameled tin!—London Tit-Bits.

Power of Suggestion.

"I thought Crimson Gulch had given up all its wild ways!" exclaimed the visitor.

"It has," said Cactus Joe.

"Then what is that faro layout doing down the street?"

"You mean in the savings bank? That was a bright idea of the cashier's to encourage thrift. It makes it seem easier and more natural for the boys to come in and leave their money, though it's kind o' hard to convince 'em they can get it back whenever they call for it."

Turn Out Miles of Stamps.

The 40,000,000 postage stamps made, counted and packed for shipment each day in the factory of the United States bureau of printing and engraving would make a stamp chain long enough to cover more than 700 miles.

Demonstration Week

During Maryville Spring Opening Week, we extend a cordial invitation to everyone to come and see the new BUICKS. We want to take you a ride in the BUICK—the car you have heard so much about and seen so many of. Don't feel a bit backward about coming around for we shall be more than glad to show and tell you anything and everything about the Buick.

Buick

FOR twenty years Buick engineers and designers have been moving forward, building a Buick prestige in motor car design and construction that has answered the world's challenge.

It has been an achievement worth the effort and established a Buick reputation of high standard and value.

The public has learned to depend upon the Buick Valve-in-Head Motor Car, and the great demands upon Buick dealers for Buick models is the highest compliment that can be paid to Buick achievement.

HELPED PERRY WIN VICTORY

Peter Tarr Made the Cannon Balls That Served So Well in the Fight on Lake Erie.

When Commodore Perry defeated the British on Lake Erie, his gunners turned the trick largely with home-made cannon balls, although at the time of the engagement the place where the deadly missiles were made was a closely guarded secret.

Accidental discovery a few days ago of a small antiquated iron furnace near Steubenville, however, reveals the secret and adds a new chapter to the historical sketches of Perry's victory. The furnace was found by men engaged in erecting furnaces for a large West Virginia steel company on the Tarr farm in Hancock county, West Virginia, directly across the river from Steubenville. It is said to have been the first iron furnace in use this side of the Allegheny mountains, and to have been built by Peter Tarr, one of the earliest settlers along the eastern banks of the Ohio river.

Old records in Hancock county show that Peter Tarr worked day and night at his secret task of making cannon balls from ore deposits found in the hillsides about the furnace, and that he sent them overland on mules to Commodore Perry's forces hiding near Put-in Bay and Kelley's Island, awaiting an opportune time to strike the decisive blow at the British naval forces.

WILL REVIVE PAST GLORIES

Historic Port of Gloucester Likely to Come Back With the American Merchant Marine.

The historic port of Gloucester, Mass., is likely to be restored to its one-time maritime glory as the American merchant marine expands. A bulletin of the National Geographic society calls Gloucester the mother of American fisheries. The story of Gloucester's fisher folk is touched on by Kipling in his "Captains Courageous," James B. Connolly, and Mrs. Ward, in "Old Maid's Paradise." Norman's Woe, on Gloucester, is the scene of numerous deep sea tragedies touched on by Longfellow in his "Wreck of the Hesperus."

Schooners are said to have originated in Gloucester and to have been so named by a Gloucester shipwright who, when he launched a vessel, heard a spectator explain: "Oh, how she scoons." The expression was used to describe the bounding of a pebble thrown sidewise into the water.

Gloucester has a floral curiosity of great beauty and fragrance, the magnolia glaucus, which grows in the swamps near the city. Among the natural wonders that Gloucester discloses are Rafe's chasm, where the pounding waves churn and rumble; the rocking stone, oscillated for an inch or so by the incoming tides; "Old Mother Ann" and "Whale's Jaw."

Painless Dentistry.

"An American at home, with or without toothache, is not much affected by the sign, 'Painless Dentistry,' but at sight of it in a foreign land he thrills pleasurably," a traveler said. "Its lure is not professional. Every tooth in his head may be perfectly sound, yet if stranded and homesick he welcomes that sign because all over Europe it is a sure indication that somewhere in the neighborhood lives a citizen of the United States. From the northernmost town of Norway and Sweden to the boundaries of Sahara the words 'painless dentistry' are likely to hit you in the eye at the most unexpected turning. Usually they are followed or preceded by 'American,' but that qualifying term is entirely unnecessary. Dentists of other countries make no pretense of performing painless dentistry, or if they do they do not advertise their skill. They leave that for their American rivals."

Cold!—Sure.

—On one of our most recent cold Saturdays the tenderfoot rank boy scouts of Terre Haute made an all-day hike along the Wabash. They were describing the hike for the benefit of some of their most interested friends. They had described the city blasts from the river, the frozen ground and the various sensations produced on their spinal columns without winning what they regarded sufficient sympathy from their listeners. Just as they were most disappointed their executive took part. "Why it was so cold that we had to break the ice off the pancake batter between frying cakes," he ejaculated.

And then the audience was moved to speech.—Indianapolis News.

French Views of Indiana.

Many French people have as vague ideas of the United States, outside of New York and the Eastern coast, as Americans have of France outside of Paris.

C. Michelon, permanent secretary of the Alliance Francaise, tells of receiving a letter from a business firm in Marseilles, one of the largest French ports, asking for information in regard to the products of the Indians of Indiana.

Sleeping Sickness Mystery.

At a recent meeting of the National Academy of Sciences, Dr. Simon Flexner told what little is known about "sleeping sickness," which has made its appearance in America. Doctor Flexner said the cause, method of propagation and means of cure were as yet unknown.

TODAY LAST DAY OF SERVICE FOR APRIL

A Very Light Docket for the Coming Term of Circuit Court and Court Will Probably Last a Week.

Today was the last of service for suits on notes and account for the April term of circuit court which will convene on Monday, April 5. The docket for this term of court is the lightest one for some time and it is probable that court will not be in session much over a week. Another reason for not holding court any longer than necessary is the fact that the farmers will be very busy at that time on their spring work.

Four suits on notes were filed today. They were the Nodaway Valley bank against W. B. Reese and Willis Reese, Nodaway Valley bank against W. B. Reese, Charlott Reese and Willis Reese; Corwin-Murrin Clothing Co. against Wm. Wells, and Corwin-Murrin Clothing Co., against G. W. Stafford

U. S. NAVY

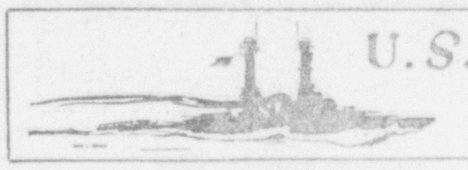
Tinsmith School.

Some U. S. sailors are shown here making plain and fancy stovepipes at a Navy training school.

The gentle art of tinsmithing as taught in the U. S. Navy schools fits a man for a rating aboard ship in any way. There his work is continued in his specialty and his ability should increase throughout his enlistment.

There is no excuse for a man not becoming an expert by the end of his third or fourth year. He may then return to civil life entirely qualified in a profitable trade or continue in the service at the advanced pay allowed for re-enlistments.

Besides the tinsmith school there are schools for every other trade used in the Navy. Carpeters, blacksmiths, plumbers, electricians, bakers, pharmacists, and a dozen other specialties are taught to the young recruits. If a young man has a hobby and wishes to perfect himself in some trade that he is fitted for, he may receive expert training by joining the Navy and applying for entrance to some trade school.



U. S. NAVY

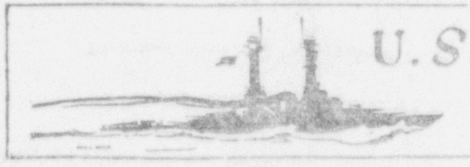
Barber Shop.

Some hotel! Everything at cost, and done with the very finest equipment. Join the Navy, and forget the tips.

Can you imagine a first class shave for a nickel, a hair cut for a dime and a massage, shampoo, and all the trimmings in proportion?

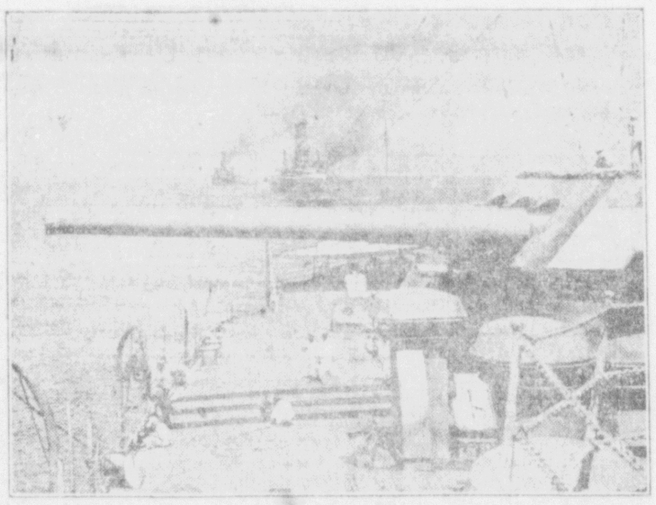
It's almost luxurious, and now that the electric potato peelers have come in, Jack finds himself with a lot more time to improve himself. He doesn't need to wash his own clothes any more either, an electric laundry will take care of them at a price which is almost ridiculous.

This view of the busy barber shop on board one of the U. S. dreadnaughts will give us all some idea of the way the men in the Navy live. Only the best is good enough for our sailors.



U. S. NAVY

With the Fleet



When you can look out over the stern of a big dreadnaught and see a line of regular he-ships following in battle formation, you just can't help swelling up and letting out a couple of man-sized roars.

A fair sea, a good breeze, and a line of battleships making fifteen to twenty knots, present the most inspiring sight any man can ask on this earth.

Living with such experiences turns boys into men, gives them a grip on life, makes real stuff of them. They work hard, they play hard, and we know that, if necessary, they can fight hard.

Learn about your wonderful Navy. Be proud of it. It is respected by every country in the world. And it is yours; every bit your Navy.

The U. S. Navy is the Forearm of the Nation.
It is your property, your first line of defense.
Know about it; read about it; see it. If possible, serve in it. It builds real men who do men's work.

Pretty Girls vs Pretty Slippers.

The Montgomery Shoe company say they have as many pretty slippers to show as there are pretty girls in Nodaway county. Now there is lots and lots of pretty girls so there must be oodles of slippers at Montgomerys. The only way to settle it for sure would be to have all the pretty girls there,, and "you know me, Al", there is some handsome young men clerks at Montgomerys. Think the girls will be there.

Empire Has Fine Program.

The Empire theatre has procured an extra good program for next week to also observe fashion week along with the other business concerns of Maryville. On the opening night of the fashion show, Marguerite Clark in "The Little Wonder in Girls" will be shown. This presentation will also be under the auspices of the Christian church Sunday school.

Tuesday and Wednesday nights Mary Pickford will star in the widely known story, "Pollyanna" written by Eleanor Porter. Thursday night Charles Ray will be presented in the "Sheriffs Son" and Friday night Bessie Love in a delightful comedy drama, "How Could You Caroline". The weeks program will close on Saturday night with Dorothy Phillips in "Paid in Advance". This picture has been running for several weeks in the cities.

First Aid to Lovers.

"In the spring a young man's fancy lightly turns to thoughts of love", and Kuchs Bros., are his good friend, also the publics and they are arranging a special display of diamonds for the week, which carry some features not yet made public. They also are to give a Sonora concert every afternoon.

The Housekeeper's Friend.

The Maryville Electric light company are looking out for the housekeepers of the city and are helping them solve the maid problem by demonstrating an electric dish washer next week.

Remus the "Profound Secret"

What the C. F. Remus Mercantile company is going to have for the pleasure of the public is a "profound secre" and the genial proprietor says the only way to preserve the "profound" is to keep it to himself. One thing is a spring housecleaning to make things so nifty and new one will require a guide in buttons to see it—and that isn't all, at all.

Special Concerts at Raines.

First you get the money—then you get the girl—then you get the sparkler, but all the public isn't the young men in love and H. L. Raines is having a display of diamonds ranging from the tiny first birthday gift for the tiniest baby bud to those platinum set hickory nut sized affairs. They are shown for your benefit, not as money magnets. Special concerts are to be given continuously in the music department and you all are most welcome

The Electric Theatre.

Mr. Clark of the Electric theatre has an unusually good program to offer to the people who will be in Maryville attending the Spring Opening. For Monday and Tuesday he has a double program booked. Larry Seman, now known as the world's greatest comedian will be seen "Head Waiter" The feature for these two days will be Corinne Griffith in, "Tower of Jewels". For Wednesday Viola Mersereau will be seen in her latest film success, "Nature Girls". A big "V" comedy will also be shown with this program. For Thursday there will be a five reel feature in addition to a Wetsern picture entitled, "West is Best" featuring Josephine Hill. Friday has been designated as Comedy Day and if you want to enjoy a good laugh you want to go on Friday. In addation to the comedy will be the serial, "The Invisible" which has been running for some time. As a fitting close for the week, Alice Brady will be shown in her latest picture, "The Ideal of Rosetta". There will be matinees every day in the week in additions to the night programs.

Charles McGrew of Wilcox is in Maryville on business today.
